2. Your P-Brick will be available over Bluetooth. Click on the button below the Bluetooth icon to connect.

3. Your computer will connect to your P-Brick. You might have to confirm the connection and password '1234' on your P-brick at this stage.

If you can't see the P-Brick in the Hardware Page in the application, continue with the following steps.

1. Open the Start Menu and click on 'Devices and Printers'.

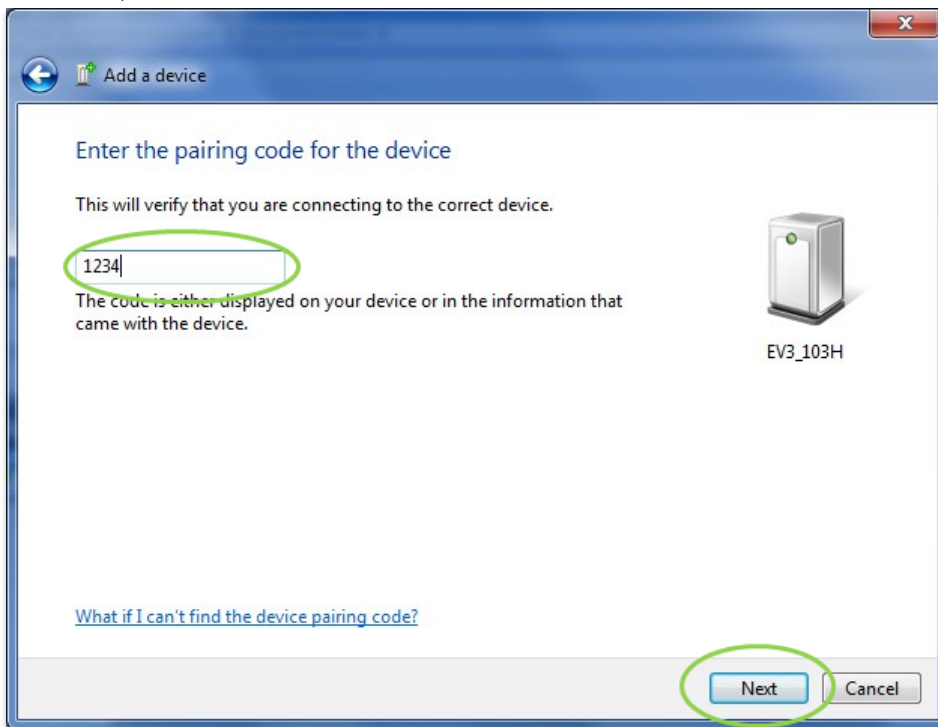

2. Click on 'Add a device'.

3. It'll take a moment for your P-Brick to show up in the list of available devices. Select it and press 'Next'.

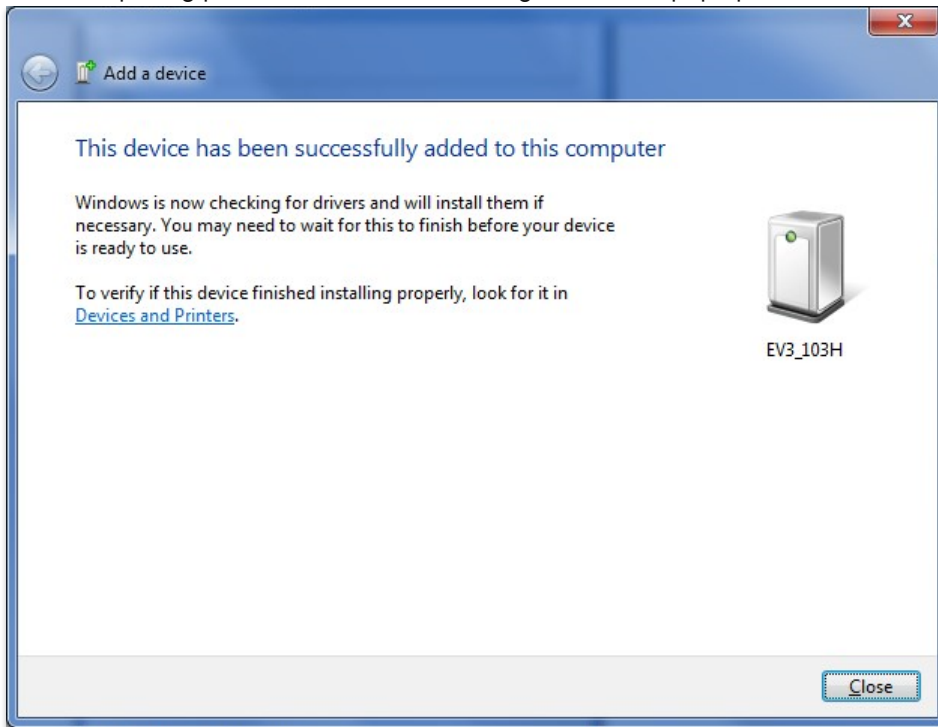

4. The PC will try to connect to the P-Brick.

5. Confirm connection and password on the P-Brick.

6. On the PC, enter "1234" like below and click 'Next'.

7. When the pairing process is done, the following window will pop up.

8. Repeat Steps 1-3.
